ACKNOWLEDGEMENT

This book is a chronicle of where we went and what we did. It will serve as a reminder to you in years to come of faces and places once familiar. It does not cover the individual runs ashore, and you must fill in the personal reminiscences yourself.

For those well-intentioned souls who take photographs and never get round to the job of sorting them out and putting them in an album, this will be an adequate substitute. For those who don't take photographs on the understanding that they "want to forget, not remember", this will be a godsend when they change their minds.

Our thanks are due to all those who contributed "copy", whether voluntarily or as pressed men; to Tug and Tombola, whose cartoons (reprinted from that excellent daily, "VICNEWS", by kind permission), appear throughout the book; to the Photographic Section who contributed most of the photographs, but not less to those private photographers who also sent me pictures; to the Welfare Fund which is subsidising us; to Mr. J. C. Mason of Gale and Polden's for his help and advice; in fact, to all who have had a hand in the preparation of this slim volume.

We hope you like it. We do not expect to please everyone, but if each of you finds some small part that pleases we shall be satisfied.

Editor.

... CANT YOU WAIT UNTIL
WE GET HOME!!! ...
